

Maksi Manda Kanani

**A clerk was making a fair book from
the rough book as told by his boss.**

Suddenly, he went to the store room...

And started jumping in the air.....

And also leaping around the room.

All of a sudden his boss came in.

What are
you doing here?

**Sir, I am trying
to capture one fly.**

But why?

**I am following your
instruction as it is. I am making
the fair copy from the
old book.**

**There is a fly
smashed and stuck in the old
book. Hence, I am trying to capture
a fly so that I can stick it to
the new copy.**

MORAL:

Many people blindly follow the rules and regulations without using their intelligence.

Maksi Manda Kanani means Foolishness by imitation. Just because someone told them something, they follow it.

God has given us brains to think, hence we must not just imitate others. Rather, we must use our own intelligence.
